The research program covers a variety of secondary specialities: audiology, sleep medicine, laryngology, otology, cranial base and rhinology, children's otorhinolaryngology, head and neck surgery. The majority of the lecturers are from the US and are internationally recognised specialists.

A more detailed program is being prepared and will be made available by the end of February 2023. As part of the social program, a joint dinner will be held for the participants on Friday, August 18.

An exhibition will be open during the conference.

We look forward to seeing you at the conference!
